SUMMARY

Junior software developer with a solid computer science foundation and real world experience building full-stack applications. Seeking an entry level backend or full-stack role where I can continue building and improving production-style projects

SKILLS

Front-End: JavaScript, Typescript, React, Redux, jQuery, HTML5, CSS3
Back-End: NodeJs, Express, Python, Ruby, Rails, MySQL, Postgres
Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools
Professional: Remote Pair-Programming, Teamwork, Mentoring
Languages: English (fluent) , Spanish (Native)

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS
Full Stack Web Developer
Full Stack Blog Platform — Built a blog application that lets users create, edit, and publish posts with role-based access, using a decoupled React frontend and Express API.
- Built with: React, Node.js, Express, PostgreSQL, Prisma, JWT Authentication, Tailwind

Drive Clone (File Storage App) — Developed a cloud style file storage app where users can upload, organize, and manage files and folders.
- Built with: Node.js, Express, PostgreSQL, Prisma, Multer, EJS, CSS, Tailwind

Message Board — Created a message board where only authenticated members can view and post messages, with different permission levels for users, members, and admins.
- Built with: Node.js, Express, PostgreSQL, Passport.js, Express-Session, EJS

MICROVERSE   Remote
Mentor (Volunteer)   September, 2023 – March, 2024
- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

On Stage   Vancouver, Canada
Crew Leader   March, 2023 – Present
- Led film crew teams of 3-6 workers while managing schedule, logistics and client deadlines.
- Developed Leadership, communication, and problem software skills transferable to software teams.

EDUCATION

MICROVERSE   May, 2022 – March, 2023
Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.

Alexander College   May, 2023 – July, 2025
Associate Degree, Vancouver
- Learned data Structures & Algorithms, OOP (Java), Database Systems, Web Development, Software Engineering, Discrete Mathematics.
